

FOUR CORNERS GROUP

Director, Technology & Digital Innovation

EveryMind (previous Peel Children's Centre and Nexus Youth Services) is committed to making our communities healthier and happier for all by putting the mental health needs of infants, children, youth, young adults and families first. Since 1985, EveryMind has inspired hope by leading in the delivery of high quality mental health services for infants, children, youth, young adults (up to age 25) and families in the Region of Peel. Since 2014, EveryMind has served as the Lead Agency for the Peel service area, where it assumes responsibility for the child and youth mental health service system within the region. As Lead Agency, EveryMind also works with the Core Service Delivery partners and fellow local child and youth mental health (CYMH) service providers to develop an accessible, responsive and coordinated CYMH system for Peel children, youth and families.

The organization seeks an outstanding leader for the newly created role of Director, Technology & Digital Innovation (Director, T&DI). As a member of EveryMind's Senior Leadership Team, the Director, T&DI is a strategic enabler and broad thinker responsible for providing leadership to the IT Department and ensuring that the operation of the Department is in alignment with the business objectives of the organization. Core functions of the role include enhancing the systems/technology infrastructure, team leadership and operational excellence, and system planning and execution. The Director, T&DI is responsible for an annual budget (operating and projects) of up to \$2M and for the direct supervision of up to 5 employees within the IT Department.

The ideal candidate is a personable, mission-driven, self-motivated, and strategic leader who exemplifies EveryMind's core values and brings outstanding communications, listening, and interpersonal skills. Committed to quality and continuous improvement, the preferred candidate is a dependable and trusted partner to members of the Senior Leadership Team and colleagues at all levels across the organization. With 5+ years of IT management experience and several years' experience in network administration and infrastructure planning, development, and execution, the preferred candidate has demonstrated knowledge of: network infrastructure (Cloud) architecture, systems platforms and PC operating systems; current network hardware, protocols, and standards; cybersecurity and data security / privacy practices and laws; digitization and/or automation of processes; business intelligence and database management (i.e. clinical systems). A post-secondary degree (or equivalent) in computer science, information systems or related area is required and a background collaborating with clinicians or other allied health professions is preferred. In this exciting and challenging role, the Director, T&DI reports directly to the CEO and will help EveryMind provide high quality mental health services to meet the needs of the children, youth and families they serve.
